COLLAGEN EXTRA® MARINE

Vitamins C, B1, B2, B5, B6, Essential Amino Acids.
Anti-ageing formula.

MADE IN GERMANY

Collagen Extra® marine contains the most extensively researched Collagen peptides available in the market.

Collagen Extra® marine contains collagen peptides clinically proven to:

- Support Skin Health
- Prevent deep wrinkle formation
- Increase skin suppleness
- Increase skin hydration
- Significantly reduce skin dryness
- Improve Skin restructuring

Collagen Extra® marine

Improve Skin firmness and elasticity

The Collagen peptides used in **Collagen Extra® marine** is an award winning example of an effective collagen peptide ingredient. Offering a unique combination of amino acids not found in other protein sources, Collagen Extra® marine is derived from natural origins of fish grade collagen halal /kosher peptides.

Each **Collagen Extra® marine** 25ml daily dose contains 8,000mg of Peptan® F collagen, combined with 40mg Hyaluronic Acid, 100% of the RDA in Vitamins C, B1, B2, B5, B6 and Magnesium.

In liquid form for better absorption and bioavailability
3 clinical skin studies prove the benefits.
Placebo controlled Clinical studies carried out in France and Japan confirm the anti-ageing effect of taking Peptan® - highlighting exciting benefits on skin health.

Successfully tested by leading skin research centres:

- DERMSCAN institute in Lyon
- SOUKEN institute in Tokyo
- COSDERMA laboratories in Bordeaux
- Over 150 women participated
- Placebo controlled studies
- Latest advanced skin analysis
- 91% of group volunteers increased skin hydration after 8 weeks
- 28% skin hydration increase in 8 weeks
- 19% increase in skin suppleness in 12 weeks
- 31% decrease in collagen deterioration in 12 weeks, deep wrinkle prevention

“

I particularly like Collagen Extra® as it is in liquid form. This helps increase the absorption of the nutrients.

It is also beneficial due to it's high amounts of hyaluronic acid. Overall, this is an excellent supplement and one I would be happy to recommend.

”

Shona Wilkinson

Head Nutritionist at the Nutri-Centre London

Why choose Collagen Extra® marine

- More collagen! A daily dose of Collagen Extra® marine contains almost twice the amount of marine collagen 8,000 mg and four times the amount of Hyaluronic Acid 40 mg when compared to similar products.
- More treatment! Collagen Extra® marine provides 20 days treatment compared to 10 days of similar products.
- Better price! Stay beautiful with only £2 a day compared to £3.6 a day or more required for other competitive products.
- 20 times more collagen! Collagen Extra® marine contains up to 20 times more collagen when compared to any capsule or tablet in the market.
- Better absorption! Liquids can be absorbed up to 98% in the blood stream.
- 40 years of excellence and quality! Collagen Extra® marine is a scientifically researched formula produced by a leading German manufacturer with over 40 years of experience in research, development and production of liquid-form nutritional supplements.
- Clinically proven benefits. Successfully tested by leading skin research centres, 3 placebo controlled clinical skin studies prove the Peptan® benefits.

Collagen Extra® anti-ageing formula with collagen Peptan® SR marine

This formula features Peptan® SR marine collagen peptides to provide the amino acids required for the correct functioning of skin cells.

- It boosts fibroblast proliferation and favors the synthesis of the major structural collagen molecule of the dermis, thus preserving its structural organization.
- Protects against free radicals, limiting their ageing effects Peptan® SR marine activates collagen synthesis by fibroblasts. It restores the three dimensional architecture of the dermis, increasing the volume of the tissue providing it with cohesion and tonicity. It affects the extracellular matrix of the dermis in order to counteract the loss of firmness which occurs over time, and eventually leads to wrinkles. Peptan® SR marine provides protection against agents generating free radicals.

Collagen Extra® Peptan® SR marine Cream 50ml.

Skin restructuring Anti-ageing formula with clinically proven collagen peptides and hyaluronic acid.

3-step skin regeneration collagen peptides:

- Stimulates fibroblast proliferation
- Boosts collagen synthesis
- Protects against oxidative stress

Collagen Extra® marine a Healthy Foundation

The Collagen peptides used in Collagen Extra® marine is an award winning example of an effective collagen peptide ingredient. Offering a unique combination of amino acids not found in other protein sources, Collagen Extra® marine is derived from natural origins of fish grade collagen halal /kosher peptides.

- Collagen and elastin create the skin structure,
- Collagen provides the infrastructure, while elastin allows skin to stretch.
- Collagen also traps moisture, hyaluronic acid
- During aging, decreased fibroblast (skin cells) activity slows collagen and elastin synthesis, leading to loss of collagen and fragmentation - Dehydration - Wrinkle formation - Loss of firmness - Loss of elasticity Maintaining a well - structured collagen network is the key to youthful skin. The main struc-

tural element of the skin, collagen is largely responsible for its characteristic properties, such as firmness and tonicity. Collagen is the most abundant protein in the body, collagen's role is to maintain the structure and resistance of the skin tissues, creating a network which anchors the layers of the skin and forms a support base for components such as elastin, to maintain skin elasticity and hyaluronic acid to lock in moisture. Collagen fibers, constructed within fibroblast cells, are responsible for the maintenance and resistance of the skin tissues. The presence of collagen peptides regulates the activity of fibroblasts in the skin and stimulates the production of both collagen, and hyaluronic acid which is important for skin hydration.

COLLAGEN MAX HAIR®

Fight hair loss! Get to the root!

MADE IN GERMANY

Collagen Max Hair® 500 ml

Liquid food supplement with special bio active micronutrients which contribute to healthy hair.

- Reversing the hair follicle and skin aging process
- Promotes healthy hair
- Hydrates the skin
- Healthy Hair, Skin, Nails

How does Collagen Max Hair® work?

Collagen Max Hair® has been scientifically formulated to provide a complete spectrum of nutrients including the highest quality marine Collagen, Hyaluronic Acid, L-Cysteine, Biotin, Folic Acid, Niacin, Vitamins B2, B6, B12, C, Selenium and Zinc which contribute to the maintenance of normal hair. It's bio-active nutrients are delivered via the blood stream directly to the hair roots for maximum benefit.

In a Pilot study the efficacy of a new combination therapy for hair loss of the diffuse type was tested in 36 patients, followed by a double blind study with 47 patients. The daily dosage was 18,000 IE retinol, 70 mg L-cystine and 7000 mg gelatin. The clinical efficacy was evaluated by the preparation of trichograms and measurement of the hair density before and after treatment. The pilot study demonstrated a significant improvement, with reduction of the telogen rate by 8.3%, an increase of the anagen rate by 11%, and an increase of the hair density by 6.9%. During oral therapy no systemic side-effects were detected.

Max Hair® Lotion 200 ml

Clinically proven Lotion against hair loss

- Collagen Max Hair® contains clinically proven procapil™ ingredient providing a protecting and repairing effect on the structure of hair follicle, slowing down the aging process
- Hair Antiaging can be promoted by stimulation of follicle cell metabolism, leading to a slow down hair loss
It contains patented procapil™ ingredients Patent N° WO 00/58347

Ingredients:

- Combination of a vitaminated matrikine (biotinyl-GHK) with apigenin (a flavonoid from citrus) and oleanolic acid from loveley hemsleya root.

Function:

- Fights follicle ageing process to prevent hair loss.

Properties:

- Procapil™ targets the main causes of alopecia:
- poor scalp
- micro-circulation
- follicle ageing
- and follicle atrophy caused by dihydrotestosterone.

In vitro

Example of activated genes by PROCAPIL™

Gene	Activity	Activation
Laminin binding	Adhesion	+146%
Acetyl CoA transferase	Cell metabolism	+137%
Cytokeratin's 10	Differentiation	+154%

How does Max Hair Lotion work?

- Oleanolic acid inhibits 5α-reductase,
- apigenin improves micro-circulation
- and biotinyl-GHK stimulates cell metabolism.

Stimulation of Cell Metabolism

- Mitosis rate Evaluation of root sheath keratinocytes after a 14-day culture of hair follicles. Biotiny-GHK (2 ppm) stimulates Ki-67 expression, indicating enhanced cell proliferation.
- Gene expression Procapil™ promotes the expression of numerous genes involved in tissue repair mechanisms (DNA-array on 3D SkinEthic® epidermis).

Max Hair Collagen Shampoo® 250 ml

Anti-Hair loss shampoo for thinning hair with Collagen and Biotin

Max Hair Collagen® Shampoo helps to prevent hair loss and adds volume to your hair. Max hair collagen® shampoo is a paraben free formula that removes pollutants and toxins making your hair look shiny and luscious. For better results apply a generous amount of shampoo and gently massage in to the hair for a few minutes and rinse well.

Triple-action formula against hair loss

Max Hair Collagen® 500 ml

Liquid food supplement with special bio active micronutrients which contribute to healthy hair.

Max Hair Lotion® 200 ml

Clinically proven lotion against hair loss.

Max Hair Collagen Shampoo® 250 ml

Anti-hair loss Shampoo with Collagen and Biotin.

COLLAGEN MSM PLUS®

Improving Life Quality.

MADE IN GERMANY

Collagen MSM Plus® contains specific collagen peptides clinically proven to have positive effects on joints cells and pain reduction.

Collagen MSM Plus® is an advanced formula based on scientific research. It is made of specific clinically proven collagen peptides, MSM, Glucosamine, Chondroitin, Vitamins D3, B12, B6 and C. Collagen MSM Plus comes in Liquid form for better absorption and bioavailability.

How Collagen MSM Plus® works?

No 1 formula for joint health

- Clinically proven Collagen peptides can be used to prevent the degradation of cartilage and thus to prevent discomfort and joint pain while maintaining collagen levels inside the cartilage. Collagen peptides used in Collagen MSM Plus may restore Bone Mineral Density to a normal level and maintain lean muscle mass.
- MSM reduces fast inflammation which causes pain in the joints and helps with the natural production of collagen. Latest research has shown that the MSM helps to relieve pain, especially in cases of osteoarthritis, rheumatoid arthritis, muscular pain and tendinitis.
- Vitamin D3 is necessary for healthy bones as it regulates our body's ability to absorb calcium.
- Vitamin B12 strengthens the immune system. And Vitamin B6 helps the body break down proteins. Vitamin C contributes to better absorption of the ingredients and the natural production of collagen.
- Glucosamine helps to restore cartilage while chondroitin may help with joint hydration.
- In Liquid form for better absorption and bioavailability

Who can benefit from Collagen MSM Plus®?

Collagen MSM Plus can benefit:

- People over 40 years
- People who exercise often
- People with joint problems
- Sportsmen
- People recovering from injuries
- People who have frequent strain joints
- Overweight people with desk-bounded life style
- People looking to maintain healthy joints and strong bones

Collagen peptides clinically proven to address **3 key health factors**:

Prevent Osteoarthritis (Joint health)

- Specific collagen peptides, used in Collagen MSM Plus®, reduce joint pain and improve joint function.
- After just 3 months of intake, the patients reported significant improvements.
- Reduced joint pain - improved joint flexibility and better overall joint functionality.

Bone health

- Prevent Osteopenia and Osteoporosis Collagen peptides used in Collagen MSM Plus® may restore Bone Mineral Density to a normal level.

Muscle health

- Prevent Sarcopenia (Loss of muscle with age) Collagen peptides maintain a better nitrogen balance than whey protein, suggesting that they are better suited to maintain lean muscle mass.

MSM “The Ultimate Health Ally”

Article on Collagen MSM Plus® regarding its main ingredient MSM by M.Sc. Pharmacist George Manios. MSM (methyl sulfonyl methane or dimethyl sulfone) is an organic sulfur compound with high bioavailability and crucial for many functions of the human body. According to scientific research and clinical studies that have been conducted over the last thirty years, MSM has shown to have strong anti-inflammatory, analgesic and detoxifying properties. In cases of osteoarthritis taking 500mg MSM daily for three months, provides analgesic and anti-inflammatory action and contributes to joint health. According to a double - blind clinical study, the results are accelerated when combining with the administration of glucosamine sulfate, improving the quality of life of the patient. The MSM helps to combat the back and neck pain, it is important to tissue regeneration and is used to promote healthy joints and cartilage. It relaxes the muscles doing it useful in rehabilitation of people who have suffered sports injuries. It is also ideal as a natural treatment of tendinitis and tennis elbow. MSM contributes to the production of elastin, collagen and keratin of a substance that is essential for the health of hair and nails. It enhances the mucosa of the digestive tract and the urinary tract, helping in some cases of constipation and providing natural anti-parasitic activity, demonstrating that the MSM (organic sulfur) is the ultimate health ally. Our body uses MSM in synergy with vitamin C to create new, healthy cells. Without proper levels of MSM, our bodies are unable to produce good and healthy cells resulting in problems such as loss of flexibility, wrinkles, varicose veins, dry skin, digestive disorders, joint problems and more. Every year we discover more miraculous properties of the MSM and many universities and research centres focus on the development and study of its properties.

The positive effect on joint cells with specific collagen peptides used in Collagen MSM Plus® formula

Results of the 2011 study confirm the positive effect of specific collagen peptides on joint cells (chondrocytes). A dose of 10g of collagen peptides per day has demonstrated a positive effect on joint pain reduction. After 8 days of treatment, collagen peptides at concentrations of 0.1 and 1 mg/mL enhanced significantly the expression of cartilage specific markers: aggrecan and type II collagen. These results show that collagen peptides in Collagen MSM Plus® may be used to prevent the degradation of cartilage and thus to prevent discomfort and joint pain due to cartilage degradation. The objective of the present study with a cell culture model was to investigate the effect of collagen peptides used in Collagen MSM Plus® on the main components of the extracellular matrix of the cartilage: aggrecan and type II collagen.

Introduction:

Osteoarthritis (OA) is the most common form of arthritis which causes major disability worldwide. OA is characterized by cartilage destruction resulting in joint space narrowing and loss of function (figure 1). The result of ongoing cartilage destruction is irreversible damage to the extracellular matrix (ECM) of cartilage with ultimate loss of joint function [2]. Chondrocytes, the only cell type in cartilage, are the versatile regulators of cartilage equilibrium. Traumatic cartilage injury leads to an irreversible cartilage loss since differentiated chondrocytes do not divide and hence do not compensate for these defects [3]. There are no long-term effective treatments for OA.

ARNICA MSM PLUS™

Fast Relief - Shooting - Cooling Gel.

MADE IN GERMANY

Arnica MSM Plus™ cooling gel with Arnica and MSM 100ml tube

The Ultimate combination for instant pain relief.

Arnica is a traditional herbal product used for symptomatic relief of muscular aches, pains, stiffness, bruises and swellings after injury, exclusively based upon long-standing use as a traditional remedy. **MSM** is a strong natural anti-inflammatory. **Menthol** creates an instant cooling soothing effect that also helps the reduction of inflammation.

Ideal if you are looking for fast pain relief of muscular pain.

Apply the cooling gel to the affected area. It can be used up to 4 times a day. If your lifestyle leads to periods where your muscles or joints are painful, tight or stiff, remember to have a tube of **Arnica MSM Plus™** gel with you every day.

DUROTONE®

Liquid nutritional supplement with
100% natural ingredients.

MADE IN GERMANY

- Instant energy boost
- Preserves and Maintains energy
- Improves mental clarity
- Shields the immune system
- Increases athletic performance and sexual activity

DUROTONE® is manufactured in Germany and marketed worldwide.

DUROTONE® is made of certified natural ingredients sourced only from the EU.

DUROTONE® THE NATURAL WAY TO:

Energy • Wellness • Strength • Clarity • Resistance • Toning

A large percentage of people are complaining about "lack of energy" and stress. Both men and women tend to blame fatigue on a too-busy lifestyle due to the daily living conditions, stress, mental fatigue and vitamin deficiency. The constant self-doubt may propel individuals towards anxiety and depression because they feel as if they are never able to achieve success. When addressing these symptoms people are turning to nutritional supplements to restore the lost balance of the body and recover of mental and physical energy. Natural Ways to stimulate the body are the key to balance.

Royal jelly consists proteins which provide all the essential amino acids for the proper functioning of the body, sugars in a fixed ratio similar to honey as well as water. But what characterizes the Royal jelly, as the treasure of nutrition, is its high amounts of B vitamins and the correct ratio of other nutrients and vitamins such as vitamin C, D, A, E, minerals (K, Ca, Na, Zn, Fe, Cu, and Mn) and a number of active substances. The combination of these ingredients make Royal Jelly a miraculous mixture that benefits particularly aching bodies

giving energy, wellness physical strength and effectively treating the symptoms of fatigue, muscular dystrophy and mental collapse.

Bee honey is one of the most valuable, nutritious super-foods giving energy to the muscles, clarity of mind and a number of beneficial properties for the human body. Its significantly high therapeutic value in cases of depression and weakness has been scientifically documented. Honey acts against fatigue, and this is achieved by storing the fructose, which is contained in the liver as glycogen, and there converted into glucose by increasing the content of the blood. This mechanism gives a direct and preserved energy making it a key element for the diet of athletes and gymnasts. It has been shown that using honey, improves athletic performance by prompting carbohydrates, improving strength in the same manner as the carbohydrate drinks or gels. The honey can be used alternatively for stimulating the body during and after physical activity as a natural isotonic beverage without preservatives and colours. Honey is a natural sweetener, easy to digest and loaded with nature's goodness.

The bee pollen

is a product of the beehive that is scientifically verified to give valuable nutrients and features energizing properties. The bee pollen is the protein food of the bees and the basic food for their new born baby bee. It is an irreplaceable natural source of protein, amino acid, carotene, rutin (vitamin ii), enzymatic ingredients and plant hormones which are harmless to humans (unlike synthetic hormones). It includes a large amount of flavonoids and phenolic compounds that help remove free radicals from the body. The effects of the bee pollen yield surprising results, help mental function, correct the balance of metabolism, increase mental focus and the capacity to work longer hours and finally working against stress and increasing the sexual activity. The use of bee pollen enhances stamina and it is widely used as a natural tonic.

The wheat germ

is the living part of the wheat grain and contains all the necessary ingredients for its development. It is characterized as a super-power food for energy and vitality and contains 6-fatty acids, vitamin E and vitamin B12 making it irreplaceable. The wheat germ oil is a shield for the body that strengthens the immune system.

Taurine

is one of the most known sulphate amino acids. It is synthesized from cysteine and methionine in the presence of vitamin B6 and zinc. Located in food sources such as meat and fish, It has been scientifically proven to help in muscle recovery after exercise. Increased alcohol intake and diet low in dairy products and meat reduce levels of taurine in the human body. Taurine is often used as one of the key ingredients in popular energy drinks improving mental agility and increasing athletic performance.

Our Liquid Nutritional supplements are clinically researched compositions of high potency, made of premium certified natural ingredients sourced in the EU. Our liquid lines are formulated using specific methods and active ingredients in liquid form, creating unique compositions that have higher absorption and bioavailability. Our quality standards are guided by the German Drugs Agency and our products come with a health certificate regulated by the German Health authorities.

The production line facility in Germany specializes in the production of liquid nutritional supplements since the late 1960's.

The product research, development and quality control are guided by internationally acknowledged experts in medicine, organic chemistry, pharmaceutical technology, botany and nutrition. A central part of the production is quality control. The production process follows the strict guidelines of ISO: 9001: 2008 and GMP regulated by the German drugs agency.

Our brands have obtained regulatory approval and today are marketed in the Germany, Belgium, Holland, Luxembourg, Greece, Australia, UK Singapore and soon in 9 more countries. Our premium formulas are made in Germany and distributed from the UK

Medicare continues its efforts to ensure the quality and safety of its products with the infamous Fresenius SGS laboratories. SGS is the world's leading inspection, verification, testing and certifications company. SGS ISTITUT FRESENIUS has a strong reputation among manufacturers, consumers and retailers operating in Germany since 1920.

“Our mission is to Improve life quality, creating natural premium formulas that really work”
